

ANNUAL REPORT 2023-2024

This report highlights the achievements, milestones, and progress we've made over the past year. It reflects our collective efforts, the dedication of our teachers, the hard work of our students, and the unwavering support of our parents and community. As we review the year gone by, we also look forward to the opportunities and challenges that lie ahead, committed to our mission of nurturing excellence in every student.

This year has been exceptionally eventful for us as we have dedicated ourselves to fully embracing the NEP framework. Beyond meeting academic requirements, our teachers have made significant efforts to equip students with the skills needed to thrive in an increasingly competitive world. It is of utmost importance to us that our graduates not only excel in their chosen fields but also embody the values instilled in them during their time here, emerging as role models for society.

Our vision:

Our vision is to inspire our young minds to develop a desire to learn, by the philosophy of love, joy and faith in the child as a learner and to provide guidance to them through educational research and knowledge development.

Faculty and Staff:

At SKIS, our faculty and staff are our most valuable assets and the cornerstone of our success. We are proud to have an enthusiastic and dedicated team of teachers in every section, complemented by our diligent non-teaching and support staff. Their passion, tireless effort, and genuine commitment to our students are the foundation of our school's esteemed reputation.

Academic Performance and Examinations:

At SKIS, academic performance is assessed through a series of Periodic and Term examinations, with a strong focus on experiential learning. Our approach emphasizes the "Learning by Doing" process, encouraging students to actively engage with the material.

Examinations are conducted in a board-like format, with question papers crafted by our dedicated teachers. This ensures that each exam presents new challenges, fostering independent problem-solving skills among students without direct teacher assistance.

Our smart classrooms enhance learning through a blend of audio-visual tools, complementing the traditional chalk-and-talk method. This combination provides a dynamic and interactive learning environment.

We also recognize that some students may require additional support in their learning journey. For those who need extra help, we provide remedial instruction through personalized, one-on-one teaching methods. This individualized approach ensures that every student receives the attention and guidance they need to succeed.

During the monsoon season, the school seamlessly transitioned to an online mode, adhering to Government regulations. Through various virtual platforms, students remained connected with their class and subject teachers. Every effort was made to ensure active participation in online classes, aiming to achieve the highest possible learning outcomes for all students.

Interactive Learning Workshops:

Throughout the academic year, a variety of interactive workshops have been conducted for students, teachers, and parents, all aligned with the curriculum. These workshops are designed to enhance learning and professional development.

Students actively participated in workshops covering diverse topics, including an engaging astronomy workshop that sparked curiosity and provided hands-on experience in exploring the universe. In addition, teachers engaged in specialized workshops aimed at improving their teaching strategies and staying updated with the latest educational practices.

To further support the school community, we also arranged a workshop by Mrs. Kajal Oza for parents, focusing on effective parenting strategies. This comprehensive approach ensures that students, educators, and parents continue to grow and excel in their respective roles.

New Learning Techniques:

At SKIS, we've introduced innovative subjects like Language Development and Robotics to equip our students for the modern world. These subjects, combined with hands-on activities, allow students to learn through active participation, fostering critical thinking, problem-solving, and creativity.

We also encourage student engagement through initiatives like the Kids' Newspaper, which enhances writing and communication skills. Our approach ensures students are well-prepared for the challenges and opportunities of today's fast-paced, technology-driven environment.

Special Assemblies and Important Days:

At our school, special assemblies are held to start the day with wisdom and insight. We celebrate significant days to highlight their importance and enrich students' understanding. These observances are complemented by a variety of activities such as short video presentations, poster competitions, role plays, skits, and more.

Some of the days we observe include Mother's Day, Father's Day, World Environment Day, Siblings Day, Kargil Vijay Divas, Teachers' Day, Children's Day, and others. Each celebration aims to foster a deeper appreciation of these events and their relevance.

Festivals and Celebrations:

Celebrating both religious and national festivals at our school fosters tolerance, sensitivity, and respect for India's rich diversity. We observe a range of festivals, including Janmashtami, Ganesh Chaturthi, Parsi New Year, Eid, Raksha Bandhan, and Christmas, as well as national holidays such as Independence Day, Gandhi Jayanti, and Republic Day. Each celebration is marked with enthusiasm, helping students appreciate and embrace the cultural richness of our nation.

Competitions and Achievements:

"Real learning flourishes when a competitive spirit is driven by ambition."

To nurture this competitive spirit and showcase student talent, our school encourages participation in a wide range of co-curricular activities. Throughout the year, students engage in various competitions such as debate, rangoli, poster making, dancing, singing, recitation, fancy dress, wall hanging, and shloka recitations. Notably, students were also sent to represent our school in inter-school debate competitions, further extending their competitive experience.

Our students consistently excel not only in academics but also in the fields of dance, music, and art. Their achievements in these areas highlight their diverse talents and dedication.

Sports and Games:

Our school is committed to nurturing talent in the sports arena through regular practice and diverse opportunities. Students are actively engaged in various sports, including traditional games like kho-kho and kabaddi. Additionally, they are given the chance to participate in inter-school sports competitions and the Khel Mahakumbh, further enhancing their athletic experiences and skills.

Parent-Teacher Meetings:

Parent-Teacher Meetings are held throughout the academic year to update parents on their children's performance and discuss strategies for enhancing their learning and development. In addition to these meetings, our teachers, department heads, and administrative staff maintain continuous communication with parents and students, providing ongoing support and oversight to ensure students' success during this crucial period.

Field Trips:

Field trips are a key component of our educational approach, offering students valuable experiences outside the classroom. Each year, students are given the opportunity to participate in a well-planned field trip designed to complement their studies and provide practical insights. These excursions not only stimulate curiosity and encourage teamwork but also help students connect classroom learning with real-world applications.

Our school's success is thanks to the dedication of our faculty and the guidance of our Academic Director, Mrs. Preeti Mundhra, the management committee, and our Principal, Mr. Hitesh Joshi. At SKIS, we encourage students to observe, explore, experiment, and solve problems, preparing them with essential skills for the future.

We also appreciate the support of parents and well-wishers in our efforts to develop confident, educated students. Enjoy the cultural program presented by our students, and have a wonderful evening with us.

Thank you.
